

WHAT IS SUBSTATION MONITORING?

Installation of Plant Wide Electrical Monitoring
(42 monitoring points over
2 million square feet)

Integrate existing utility monitoring
system (Detroit Edison)

DO YOU NEED IT?

**Save time Analyzing (re-analyzing)
Utility Consumption Data**

Increasing Utility costs

Implement departmental allocation and
billing of Utility Usage

Pinpoint Energy Conservation strategies

▶ Substation Monitoring

▶ BENEFITS

Continuous Verification of Utility Data
Plant-wide Utility Usage
Separate Utility Data per Department
Real-time Electrical Alarms

▶ FEATURES

Real Time Monitoring
